

S Scale Roller Test Track

This roller test track will accommodate American Flyer and Scale locomotives. Use it to demonstrate a locomotive at a train show, program a DCC and sound unit, or look for a short. All of the track sections are removable except the 4' piece at the terminal end. It can be reconfigured to run 2 small locomotives at the same time with the available 2 extra roller sets, all the way up to a big 4-8-8-4 articulate. It is over 3 feet long and is completely American made!

Available Exclusively From:

Robert Suhr
485 Kissel Ave.
Staten Island NY 10301
Email & Paypal ID DERF92@aol.com
